

SEFTON TO CAMPBELLTOWN RAIL WORK NOVEMBER 2021

Starting 6:00pm Friday, 26 November

Rail train unloading

Australian Rail Track Corporation (ARTC) will be unloading rail from a rail train in preparation for future installation between Sefton and Campbelltown NSW from 6:00pm Friday 26 November through until 7:00am Sunday 28 December 2021 including overnight work.

How could this work affect you?

There may be some traffic impacts, it will be noisy at times, light towers will be used for any night works, and some dust may be generated. Please be assured that we will implement measures to manage and minimise these impacts on the community where possible.

Traffic controllers and temporary signage will safely guide all road users around any changed traffic conditions. Please keep to the speed limits and follow the direction of the traffic controllers and signs.

The work will involve the use of machinery, vehicles and plant which will generate some noise. We will turn off machinery when not in use, arrange work in stages and/or phase the equipment used at one time to reduce noise impacts where possible.

Light towers will be required to ensure a safe work environment overnight. We will position the light towers so that light is directed away from residences.

The movement of materials and machinery on site may result in the generation of dust. We will take practical measures to reduce the amount of dust produced by our works where possible, however we recommend keeping windows and doors closed during the work. Please be aware that unforeseen high wind gusts may impede our ability to reduce overall dust levels.

We thank you for your patience and understanding while these works are being undertaken.

For information on our planned works please scan the below QR code with your smartphone or QR code reader.

WANT TO KNOW MORE?

ARTC is committed to working with landowners, communities, state and local government agencies as a vital part of our planning and consultation work, and we value your input. If you have any questions or comments, please let us know.
