

MILE END TO NORTH ADELAIDE RERAILING

APRIL 2022

Commencing 6:00am Friday, 15 April

Rerailing works

Australian Rail Track Corporation (ARTC) will be carrying out scheduled rerailing work between **Mile End and North Adelaide SA** from **6:00am on Friday 15 April through to 6:00pm Tuesday 19 April 2022 including overnight and weekend work** to maintain a safe and reliable rail network.

We will begin mobilising to site and carrying out minor preparation work in the days prior to the work commencing and site clean-up will be completed in the days following the work. Mobilisation and clean-up will be completed during standard construction hours.

How could this work affect you?

The work will involve the use of machinery, vehicles and plant which will generate some noise. We will turn off machinery when not in use, arrange work in stages and/or phase the equipment used at one time to reduce noise impacts where possible.

Light towers will be required to ensure a safe work environment overnight. We will position the light towers so that light is directed away from residences.

The movement of materials and machinery on site may result in the generation of dust. We will take practical measures to reduce the amount of dust produced by our works where possible, however we recommend keeping windows and doors closed during the work. Please be aware that unforeseen high wind gusts may impede our ability to reduce overall dust levels.

Traffic controllers and temporary signage will safely guide all road users around any changed traffic conditions. Please keep to the speed limits and follow the direction of the traffic controllers and signs.

We thank you for your patience and understanding while these essential works are being undertaken.

For information on our planned works please scan the below QR code with your device.

WANT TO KNOW MORE?

ARTC is committed to working with landowners, communities, state and local government agencies as a vital part of our planning and consultation work, and we value your input. If you have any questions or comments, please let us know.

Our response to COVID-19

Rail is an essential service which facilitates the movement of freight across the country for the benefit of the Australian economy and jobs. This is a responsibility ARTC takes very seriously, and we are working hard to ensure we balance the challenge of ensuring the safety and reliability of a critical transport network, alongside our obligations to meet and respond to the current public health challenges associated with Covid-19. We are committed to adhering to the SA Government guidelines and where practicable will implement additional control measures.
